

MARKYT Community Resilience Scorecard

Dear residents

Our community has been invited to take part in a state-wide collaboration.

This collaboration sees State Government and 139 Local Governments across Western Australia moving forward together. The study will gather and share baseline and informing data to help local communities like ours to recover and thrive following the COVID-19 outbreak in Australia.

- This study will provide **direct benefit** to our community.
- We will get **robust data** to share with you that lets us know how we're coping, as a community.
- We will prioritise our key focus areas to **decide on our next steps, together**.

Importantly, we will be able to see how we're going compared to other local governments – to share our experiences and to learn from one another.

- Where are we strong, and can help others?
- Where are we having challenges, and who can help us?

With limited resources available to conduct studies like this, we are grateful to the following organisations for providing funding and pro-bono support to make this possible.

Department of
Local Government, Sport
and Cultural Industries

Local Government
Professionals
AUSTRALIA WA

Remarkable times call for remarkable collaboration. We are stronger when we work together.

This is where we need your help.

1. Please complete a confidential **MARKYT Community Resilience Scorecard** by **3 July 2020**.
To care for the environment and manage costs, please consider submitting your response online.
Estimated completion time = 6-7 minutes.
2. Share with your family and friends. We'd like to hear from all residents aged 18+ years.

Complete a scorecard online:
www.research.net/r/MARKYT

Contact the Shire of Kent on 9829 1051 or
admin@kent.wa.gov.au to request a printed
scorecard. Or simply download a copy from
www.kent.wa.gov.au/

If you have any questions about this study, please contact your Local Government.
